# Construction Edition

## A COMPLETE, STREAMLINED CONSTRUCTION ERP SOLUTION.

"We've torn down the silos we had with the client-server solution, so now we have access in one view of the data. We're now able to see where we are cost-wise with our existing construction projects; we're able to look at the profitability of each project, look at the customer base and understand where we are most successful."

**Jeff Hamilton, President, Roberts Glass & Service**
Industry: Special Trade Contractor
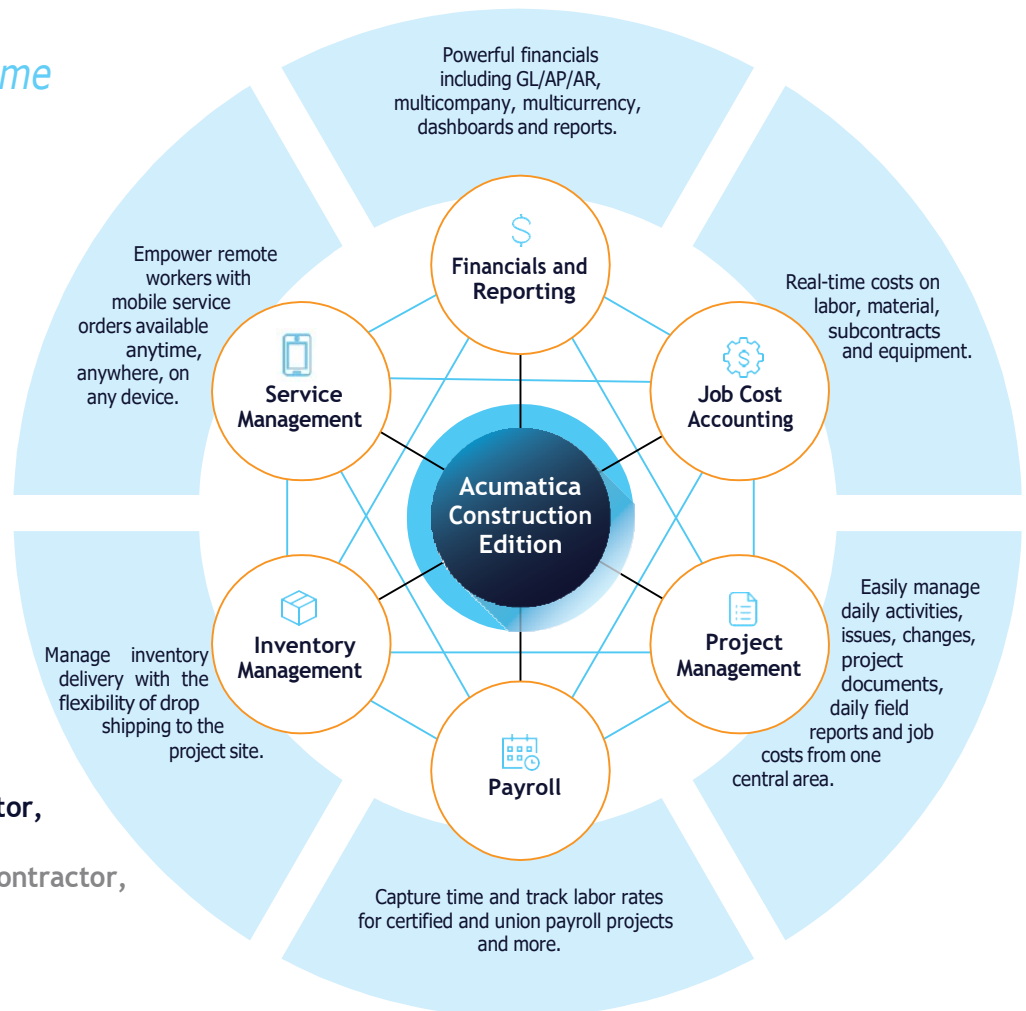

# Cutting-Edge Construction Software

Acumatica Construction Edition is a comprehensive, modern cloud ERP application with built-in CRM and Field Service modules and superior mobile technology that arms construction companies with real-time information through role-based dashboards, powerful business intelligence, and flexible reporting and inquiry capabilities. The user-friendly platform also includes superior compliance management, robust financials, job cost accounting, project and change management, payroll, inventory, and service modules. Dashboard drilldown reports easily identify changes in project scopes, labor, materials, and equipment.

Connect to top-tier construction management and estimating programs for best-in-class functionality in a single, cohesive platform configured to meet your organization's complex and evolving business needs. Automate routine tasks and improve data processing for accounts payable and other business operations with native artificial intelligence and machine learning. Optimize project material controls and eliminate inventory and purchase order management delays, including drop-shipping directly to the job site.

*Connect field, office and remote workers in real-time with cloud and mobile construction and accounting software.*

"With Acumatica, I'm giving employees an ultra-efficient tool they need to do their jobs correctly and allowing them to do things easier. I'm handing them a smartphone versus a rotary phone. They are more well-equipped to do their jobs, which produces good outcomes for customers and helps us build the business."

**Matthew Shamp, Executive Director, Carlson-LaVine Inc.**
Industry: Construction General Contractor, Non-Residential Buildings

VIEW SUCCESS STORY

Powerful financials including GL/AP/AR, multicompany, multicurrency, dashboards and reports.

Real-time costs on labor, material, subcontracts and equipment.

Easily manage daily activities, issues, changes, project documents, daily field reports and job costs from one central area.

Capture time and track labor rates for certified and union payroll projects and more.

Manage inventory delivery with the flexibility of drop shipping to the project site.

Empower remote workers with mobile service orders available anytime, anywhere, on any device.

Acumatica Construction Edition

# A to Z Functionality for Contractors

Organizations in the construction industry navigate a multifaceted and complex business environment that traditional ERP platforms do not wholly serve. Acumatica allows you to grow and evolve your business with a scalable, secure, future-proof mobile cloud platform, an intuitive user interface, and native artificial intelligence and machine learning. Acumatica's all-in-one ERP platform connects every part of your business—from budgeting to project management, purchasing to inventory, and field service to customer management. Automate change order and project issues and communicate with field staff, subcontractors, and vendors in real-time. Gain company-wide visibility of costs, budgets, projects, commitments, schedules, and contracts—allowing for tighter project controls and saving time and money. Modernize construction workflows with real-time task views, CFMA benchmarking, AIA reporting and billing, compliance management, daily field reports, and certified payroll.
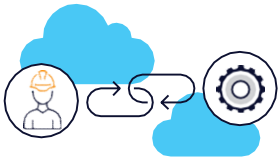

**General Contractors**
Residential, Commercial Builders, Industrial Builders

**Heavy Construction Contractors**
Highway/Street, Bridge, Tunnel, Water/Sewer, Pipeline, Power

**Land Developers**
Property Development for Commercial, Industrial, and Residential

*Obtain complete business and project data using Acumatica Construction Edition at any time, from anywhere. Gain actionable insights with interactive, configurable dashboards to monitor budgets, profitability, KPIs, and manage changes in project plans, budget, and scope.*

# Connect the Job Site and Office

The ability for employees and software to communicate effectively and efficiently between the office and job site is critical for the modern construction business. Acumatica's available service and inventory management modules allow organizations to manage projects in a single system from the office or field. Superior mobile technology streamlines job site time entry and expense management. Managers traveling between job sites can access real-time information from their connected device, including mobile dashboards, submittals, drawings, photo logs, daily field reports, and RFIs anywhere, on any device.

# Extend Acumatica with Certified Applications

The Acumatica Marketplace is one of the leading communities of independent software vendors with integrated applications for construction management, estimates and proposals, job site time records and HR, equipment and supply logistics and shipping, contract management with eSignature, and more.

# Discover Why Top Contractors Rely on Acumatica for their Success

LAUNCH THE VIEWER

# An Innovative Cloud Platform Ready for Modern Technologies

The modern construction industry demands an ERP platform that ensures scalability and personalization. The ability to integrate new technologies that facilitate growth without extensive IT costs is essential for construction companies to gain the competitive edge they need to thrive in today's environment.

The Acumatica xRP platform is a versatile architectural framework and application development platform that empowers companies to tailor the software to the way they do business. Acumatica's open architecture provides open APIs, protocols, and tools organizations need to continually incorporate new capabilities into their platform without disrupting other functions. Machine learning and artificial intelligence automate manual tasks and streamline processes. Low-code or no-code development tools let organizations easily incorporate third-party applications and modern technologies into their ecosystem.

Personalized settings promote an intuitive experience for each user. Customizable reports and dashboards put KPIs and deadlines on top of each user's list of priorities. On-the-go mobility enables users to complete their work wherever they are and enjoy the same intuitive experience regardless of the device.

# The Trusted Leader in Usability, Mobility, and Value

Acumatica's Customer Bill of Rights protects customers with an easy-to-understand End User License Agreement. It guarantees ERP implementations without hidden fees. The Bill of Rights outlines Acumatica's commitment to consumption-based licensing that does not inhibit growth. It provides sustainable pricing models with limited price increases, deployment choice, and consistent customer service access. It also protects customers' access to their data, so they can retrieve it at any time.

Further, Acumatica is consistently rated high in both usability and value by industry analysts and users. Acumatica was recognized by Construction Executive as one of The Top Construction Technology Firms™ for 2021, and is featured in Technology Evaluation Center's 2021 ERP Software for Construction Industries Buyer's Guide. Acumatica Cloud ERP also received one of the highest honors in tech: the Best ERP Solution CODiE™ award for 2021. SoftwareReviews' 2021 Enterprise Resource Planning Data Quadrant Awards named Acumatica a Leader and a Gold Medalist winner.

In addition, Acumatica was given the 2021 TMCnet Remote Work Pioneer Award for being a top software solution supporting remote work in the wake of the Coronavirus. Acumatica also rates consistently high with Nucleus Research and is a Leader in the G2 Mid-Market Grid Report for ERP Systems. Acumatica maintains a near-perfect Overall User Rating on the Gartner Peer Insights report.

| Acumatica by the Numbers: | | | | |

Collections Management
Shipping Integrations
Electronic Data Interchange

"Having a solution that can communicate with other tools was a must. In construction, there are a lot of pieces and moving parts, multiple vendors and subcontractors, and different expenses and financial controls that need to be tracked and communicated in multiple places. Integration is essential."

**Bruce Young, President & Co-Founder, Curran Young Construction**
Industry: Construction Build Management

## ABOUT ACUMATICA
